

8th Workshop on Polarized Positrons

POSIPOL 2013

Sept. 4-6, 2013, Argonne National Lab,
9700 S. Cass Ave, Argonne, IL, 60439,
USA

International Program Committee

I. Bailey, Lancaster U
E. Bulyak, KIPT
S. Doebert, CERN
W. Gai, ANL
J. Gao, IHEP
J. Gronberg, LLNL
G. Moortgat-Pick, Hamburg U/DESY
T. Omori, KEK
S. Riemann, DESY
L. Rinolfi, CERN
J. Sheppard, SLAC
F. Staufenbiel, DESY
V. Strakhovenko, BINP
T. Takahashi, Hiroshima U
J. Urakawa, KEK
A. Ushakov, Hamburg U / DESY
A. Variola, LAL
F. Zimmermann, CERN
F. Zomer, LAL

Conference topics:

- Generation of polarized positron beams
- High intensity positron sources
- Positron generation target issues
- Physics applications of polarized positrons
- Polarized gamma ray generation
- Channelling radiation and applications
- Physics applications of high quality X-rays and gamma-rays

Local Organization Committee

Wei Gai
Wanming Liu
Nancy Rezek
